AUGUST REVIEW

* The Emergency Generator at the water treatment plant has been vented properly and in the near future will be wired into the arena/hall to provide power to the facility in case of an emergency (All part of the updated EMO plan for the village of Theodore - which will be explained at the Town Hall on Sept. 25)

. GRASS CUTTING & TRIMMING

- Is continuing as the grass has slowed down so the guys have been able to get more areas in a shorter time frame. They've been working in the ditches and cleaning out a few of the culverts as they go.

Watch for the guys as they're out and about keeping the village clean and cut

****We do ask that you respect the barricades the crew have put up IF they are doing any sort of road repair such as: Grading, back blading, sanding, dust control applications - This ask would apply to any work being done within the village where barricades are present. They are there for your safety, please do not disregard them.****

*Please be patient when it comes to requests to the village office. The Guys are doing their best to keep up to everyone's requests.

Water Plant**

* Grading, back blading and road work continued over August.

* Council held its regular meeting on Aug. 21st and our other new councillor Dorothy Oliver joined us after attending to personal matters back home in July.

*The Water Filters had the media changed out finally, after over 20 years!! A long overdue replacement. The sludge was over a foot thick in the filters and took some time to clean out before the new media could be put in. (See pictures above)

AUGUST REVIEW

-The process of draining the landfill site at the village dumping grounds is underway. The provincial government has requested this be completely filled in / levelled off before winter. This will be a long, slow draining of the water and then backfilled and is going to take time to complete.

Visit the Parkland Regional Library as they are now open 3 days a week! They are open now on Monday's 1-5pm as well the regular Tuesday and Thursday! Drop in and see what's up in the world of books these days! They have a computer and access to the internet if you need to do a little surfing!!

AUGUST ACTIVITIES

WHITESAND REGIONAL PARK had a pretty busy August!

*The Glo night Golf night ended up being held on two separate occasions because the 1st night was rained out about half way into it. Teams had fun with the 'glowing' golf balls and glo-sticks to get them through the night!

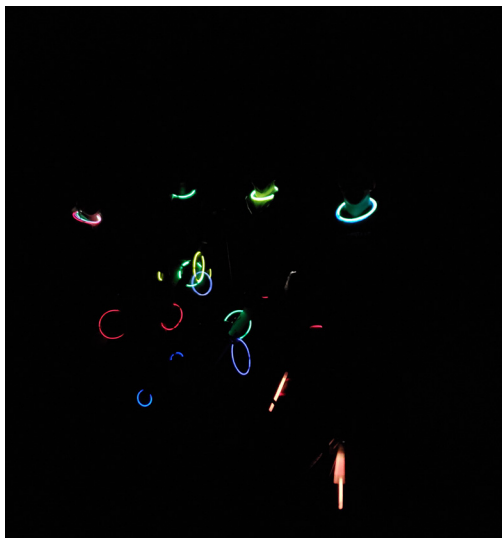

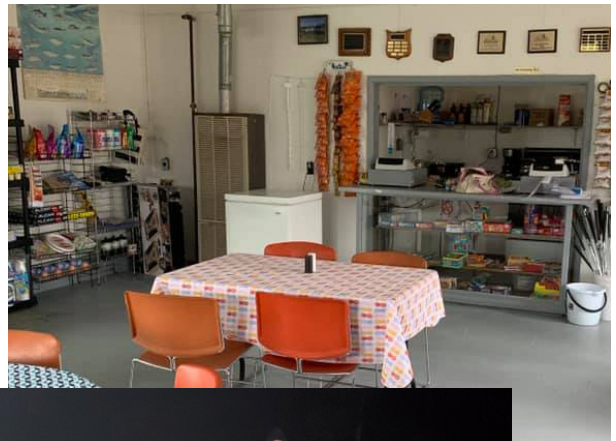

*The friends and members golf tournament went over great as well!

*The canteen is slowly winding down its season but you can still drop in for a bite to eat for a time yet and why not get in some fishing or a round of golf while you're at it!

*Theodore Health Center brought the residents out to the park for a relaxing and enjoyable day out at the park! They had a hot dog roast and enjoyed some great weather to be outdoors!

The Golf Course is in Excellent Shape, plus try out the Disc Golf part of the course or maybe min golf is more to your liking!

Call the Office and talk to Marcia or Neil for information on camping, golf, fishing and more!
