SEPTMEBER REVIEW

THANK YOU to Delaine and Karl Kuchinski who revitalized the mound on the roadway near the entrance to Theodore! They did a fantastic job! (Picture on front of this newsletter)

*** The Emergency Generator at the water treatment plant in the near future will be wired into the arena/hall to provide power to the facility in case of an emergency(All part of the updated EMO plan for the village of Theodore)**

- CULVERT CLEANUP -The guys have been working in the ditches and cleaning out the Culverts. Most are full/ partially full of dirt/gravel/ grass and are being cleaned out or dug out to provide better drainage. Watch for the guys as they're out and about working on those until freeze up and will pick up where they left off in the spring.

****We do ask that you respect the barricades the crew have put up IF they are doing any sort of road repair - This ask would apply to any work being done within the village where barricades are present. They are there for your safety, please do not disregard them.****

***Please be patient when it comes to requests to the village office. The Guys are doing their best to keep up to everyone's requests.**

SEPTEMBER REVIEW

<<<SPEED BUMPS ON ANDERSON & RAILWAY AVE.

* Council held its regular meeting on Sept. 18th and we reviewed a number of different topics/ issues and you can catch up on our council minutes anytime through the village website.

*SPEED Bumps are on Anderson Ave. and Railway Ave., please slow down. They are never anyone's favorite thing but due to excessive speeds from traffic they are necessary to help alleviate the problem.

*The Arena has had some fresh sand placed down over the pipes that were exposed but we were unable to get to all the areas needed (we targeted the more troublesome area first) so more sanding will take place in the spring.

*The Testing for Asbestos in the Zamboni room at the arena recently returned with unfortunately, a **Positive** result. OHS have told us to close off the Zamboni room until we have the Asbestos removed (Abatement). We have already had two companies come in for quotes and we hope to get this resolved before the new winter season begins.

THANK YOU

to everyone who came out to the Town Hall Meeting on Sept. 25th. If you would like to view the Power Point Presentation you can go to the village website and download/read a PDF version on the 'Town Notices' link

-The process of draining the landfill site at the village dumping grounds is underway. The provincial government has requested this be completely filled in / levelled off before winter. This will be a long, slow draining of the water and then backfilled and is going to take time to complete.
